Why Choose GAT Shield?

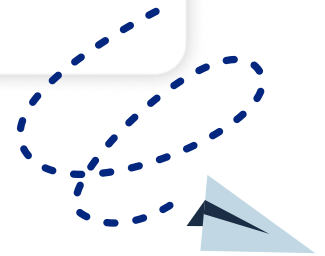

- **Achieve CIPA Compliance with Ease:** Meet CIPA compliance standards without the need for expensive appliances or complex configurations.
- **Tailored Filtering Features:** Access a suite of filtering features customized to simplify your responsibilities.
- **Streamlined Deployment:** Simplify deployment and maintenance for hassle-free web filtering.
- **Confident Management:** Effortlessly manage student devices, whether they're at school, home, or anywhere else.
- **User-Friendly Reporting:** Gain insightful user-level reporting about your students behavior online.
- **Scalability Without Limits:** Expand your web filtering capabilities without constraints on bandwidth or other resources.
- **Efficient Investigation Tools:** Investigate flagged activities effortlessly and access user-friendly reporting.
- **Centralized Management:** Simplify operations with centralized management on a single platform.

Our core strategy is the safety of students, keeping data safe, and making sure applications comply with policies. We definitely plan on using GAT going forward and also continuing with 1:1 Chromebooks in Hillsboro School District

Explore the Full GAT Suite for Education

GAT Suite offers a suite of integrated products designed to enhance student safety, engagement, and more. Our integrations include:

Exclusive for Education

Teacher Assist

**Focus on teaching,
let Teacher Assist do the rest**

- **Google Classroom Management:** Real-time student screen monitoring.
- **Streamlined Classroom Control:** Manage screens, review browsing history, enable tab inspection, and allocate teachers and students effortlessly.
- **Full Classroom Control:** Gain real-time monitoring, analysis, and powerful management capabilities for student Chrome browser sessions and Google Classroom.

Exclusive for Education

Taskmaster

**Our AI-based solution to Monitor
Your Students' Homework**

- **Ensure Homework Integrity:** Detect AI-created content and prevent copy-paste actions to ensure assignment originality.
- **Monitor Homework Progress:** Set submission deadlines, track student progress, and stay notified on assignments in real-time.

GAT+

Strengthen your education cloud security

- **Complete content search:** GAT offers domain-wide auditing of files, emails and much more using highly configurable filters.
- **Policy enforcement:** GAT+ shows you all third party applications installed on your domain.
- **Protect, Report and Manage your Users' Data in the Cloud:** GAT+ delivers precise collaboration insights, measuring user activity and engagement beyond file sharing. It covers emails, calendar appointments, and user interactions.

GAT Unlock

Complete Security Management for your Google Workspace

- **Unlock Better Auditing:** GAT Unlock mandates approval from two authorized individuals: the requestor (Admin or Delegated Auditor) and a verified Security/Verification Officer for document access and ownership changes.
- **Change Ownership and Access Rights:** With GAT Unlock and approval, change ownership, access, copy, and view files. Admins can also delegate email access, delete unwanted emails, and secure student data with double verification.

GAT Flow

Automate your Google Workspace tasks

- **Save time & reduce costs:** GAT Flow covers everything from Classroom Management to email signatures, pre-loading files, and group management.
- **Unleash the power of automation:** Easily onboard students and teachers, update signatures, folders, and contacts in bulk.
- **Secure user off-boarding:** The GAT Flow Off boarding feature provides ease of handling leavers in your school or district.
