Alert on Negative Login by Any Google Workspace User

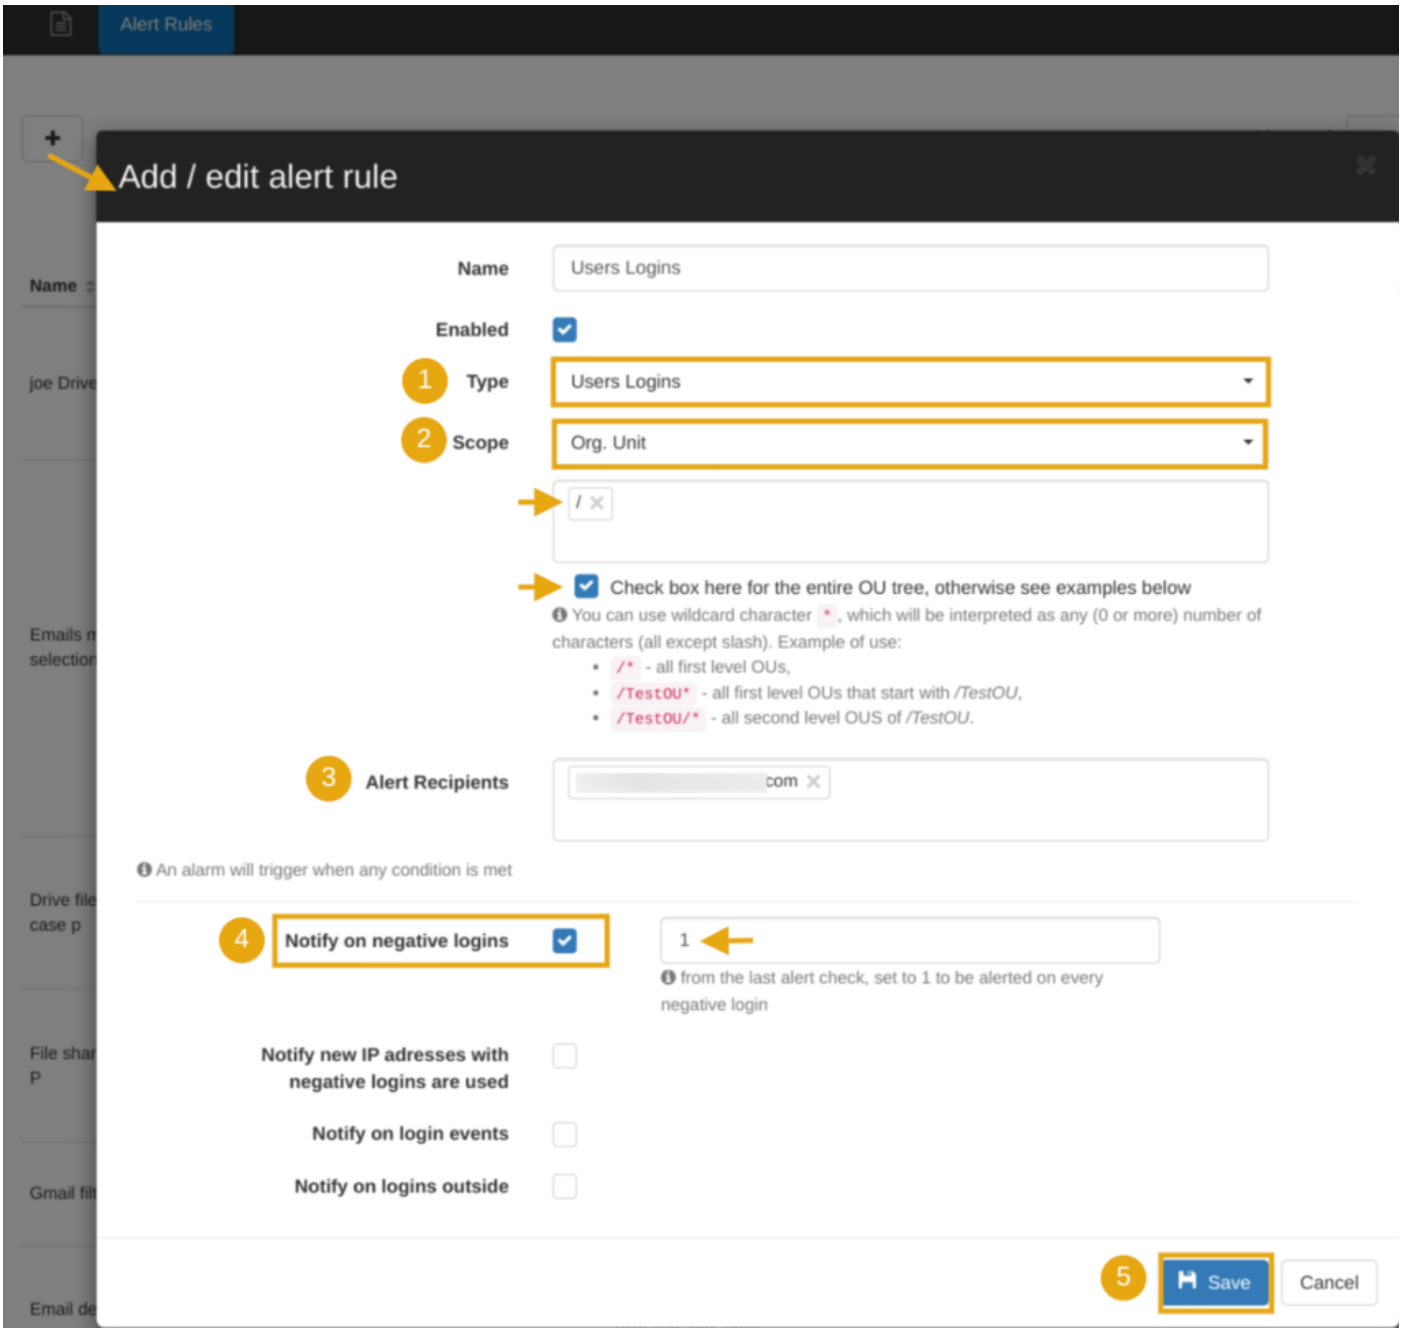

DLP (Data Loss Prevention) · https://gatlabs.com/knowledge/tech-tips/alert-on-negative-login-by-any-g-suite-user/

Get alerted a negative login is registered by GAT+ from any user of your Google domain

How to Set Up Alert Rules

Open GAT+ navigate to **Alert rules** under the **Configuration** tab

Click on the **+** sign and a new window will be displayed, fill in the details.

Set up a **Name** for the rule

Set the checkmark to **Enabled**

Set the **Type** to **Users Logins**

Choose the scope who will be affected by this alert rule

- It can be a user, group, or org. unit

Pick and select the **Alert Recipient**, this can be a user or group email.

Select **Notify on negative logins,** every time user from the selected **scope** has tried to log in to your domain un-successfully, the alert will be triggered.

When the rule is created it can be found in the **Alert rules** under **Configuration**

It can be viewed (eye icon), edited (pen icon), or deleted from the (x button).
