# Google Meet with No Organizers Present

Calendar Audit & Management · https://gatlabs.com/knowledge/tech-tips/google-meet-with-no-organizers-present/

## Introduction

The Meet audit menu in GAT+ provides an extensive insight into all the Google Meetings that are happening in a Google Workspace domain.

More information for the Meet audit can be found here.

Within the Meet audit menu, you will find the tab called **Meetings without organizers.**

> **Meetings without organizers** are meetings where there was **no organizer present** or **participants returned to the meet later with the organizer absent**.

### Real use-case

This might be ideal if you are a school domain and want to see all the meets where the Teacher (organizer) was not present, yet there were students (users ) present in the Meet call.

## Meetings without organizers

Navigate to **GAT+ → Meet** audit→ **Meetings without organizers**

## Result

This will display all the **Meetings without organizers** present

In the Time Frame, select Date from and Date to see all the meetings in the time frame without organizers present in the call.

Under **Actions** on the right side, click on (chain icon) to see the **Activity Graph** of the Meet.

This will show **all** the **users** that were in the **Meet** call, while the **Organizer is Absent.**
