Google Classroom Insights

Classroom Audit & Management · https://gatlabs.com/knowledge/tech-tips/google-classroom-insights/

Introduction

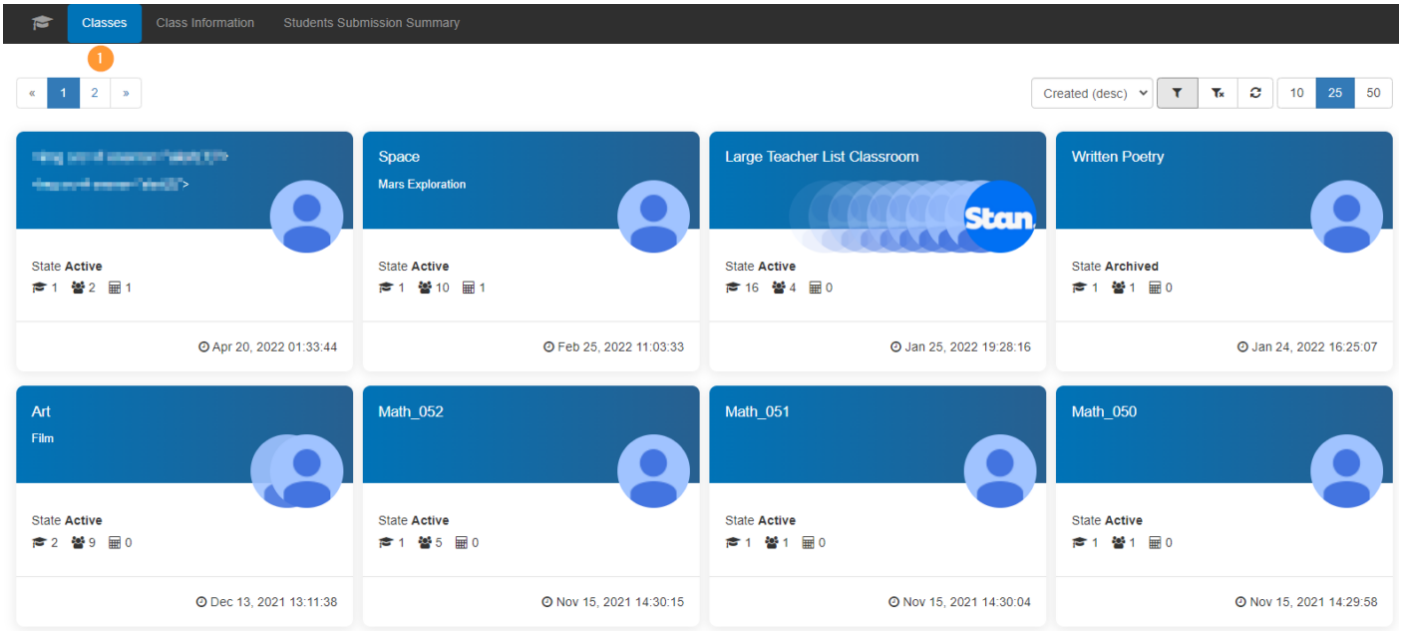

Classroom Insights displays Google Classroom metadata in a friendly UI (User Interface). A Delegated Auditor (School Principle or School Manager) or a Super Admin can very quickly report on any Google Classroom and see how that Classroom is performing compared to others.

To access it, go to **GAT+** and click under **Classroom Insights.**

You will be directed to the first of two tabs;

Classes Tab

In the **Classes** tab, you can view all the existing Classrooms across your domain. These will be displayed in a card view showing the classroom details such as name, state, and the number of users (teacher and students).

Classes State

Easily identify the State of any given Classroom these states can be:

- Active
- Declined
- Archived
- Provisioned
- Unspecified

Classes Information

You can also see at a glance:

- Created date
- Number of Teachers
- Number of Students
- Assignments for the Class

Filters

Use the funnel icon to filter by:

- State
- Class name
- ClassID
- Teacher(s)
- Students(s)

By clicking on the top area or each class you will be directed to the second tab Class Info

Class Information

This will present a very granular view of the class you've selected.

You can view the People, Classwork, Grades, and Browsing activity of the users in the Classroom.

People

The **People** tab will display the Teachers and Students along with the number of assignments for the specific **class.**

Classwork

Select **Classwork** to view all the classwork in the selected classroom.

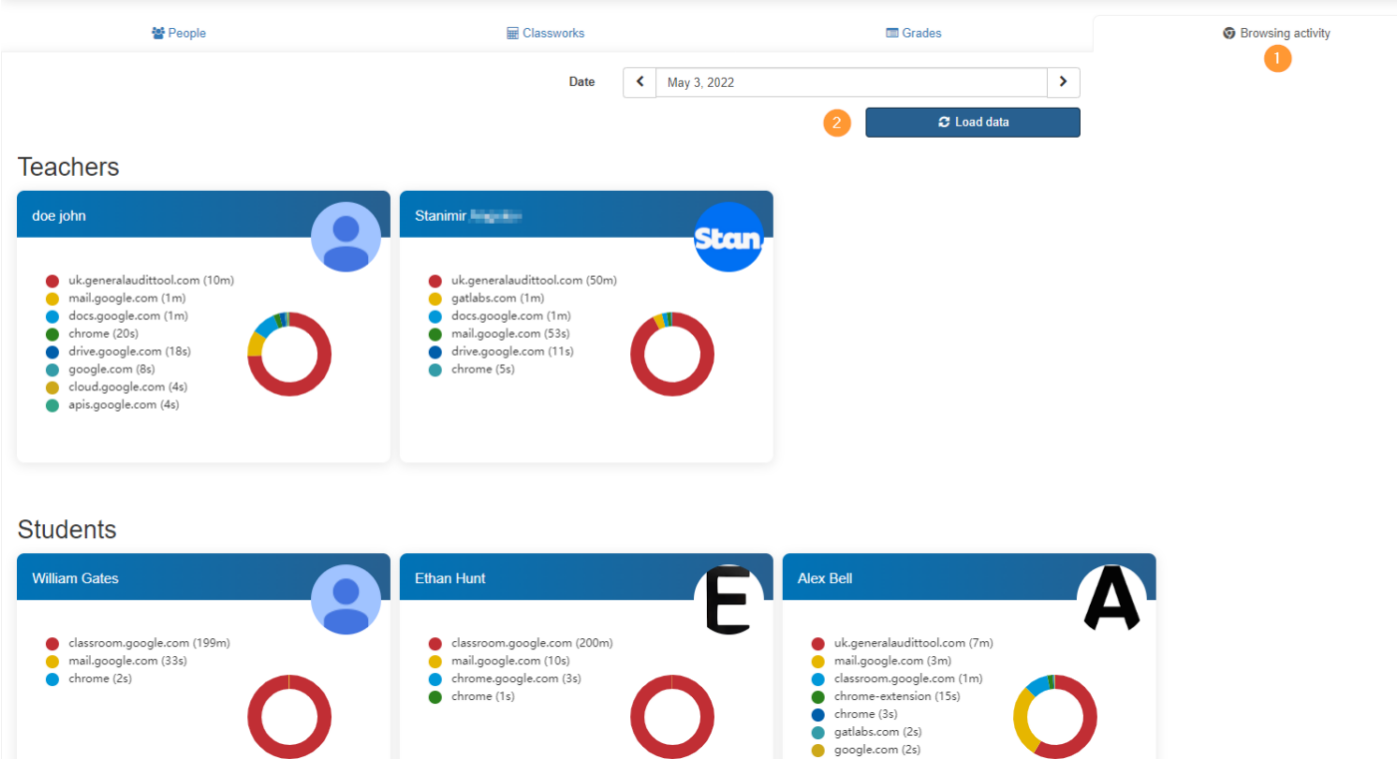

View the **Due date**, **Average grade,** and **description** of the Classworks.

Grades

In **Grades** see the **grades for each student** and the **class average** on **each classwork**

Browsing Activity - Requires SHIELD extension

Browsing history requires **GAT Shield**, this area will present the **browsing activity of the students** and **teacher** for any selected day - up to 187 days back.

Student Submission Summary

In the Student Sumibssion summary, you can see

- Students - list of all students in the domain
- Student OU - where they located
- Classroom - the specific classroom and the classwork done for it
- Classworks - will show the details for the classwork, in percentages

- Assigned
- Submitted
- Submitted on time
- Submitted late
- Not submitted
- Submitted only
- Overall
