Google Meet activity stats

Users Audit & Management · https://gatlabs.com/knowledge/tech-tips/google-meet-activity-stats/

GAT+ presents all **Google Meet activities** of your domain.

In GAT+ navigate to **Meet audit** from the left-hand menu

The **Activity** tab is the first tab open.

In it, we present all the Google Meet activities.

> When the meet call has ended (the call is disconnected) then a record of this action is created and additional information presented.

The **Activity** tab will present **weekly** and **monthly summary**, **Product types and devices used** and **Top 10 internal and external users**

Weekly and Monthly summary to view the weekly stats for

- **Total Meets**
- **Total Duration**
- **External meets**
- **Total internal users duration**
- **Internal meets**
- **Total external users duration**
- **Internal unique users**
- **External unique users**

Weekly summary

Monthly summary

View the **Product types and devices used** by clicking on the field. The stats will be based on the **Weekly** or **Monthly summary** selected above.

View the **Top 10 users** by clicking on the name. The stats will be based on the **Weekly** or **Monthly summary** selected above.
