How to Sign into Google Chrome Browser

Classroom Audit & Management · https://gatlabs.com/knowledge/tech-tips/how-to-sign-into-google-chrome-browser/

Login to Chrome

Open Chrome browser and open the webpage **accounts.google.com**

The screen below will appear.

In the Email or Phone field - Enter your Email address for example: *User@domain.tdl*

Click on **Next** - to proceed.

Then **Enter the password** and click on **Next** again

Link and Sync

You will be **logged in** to your Chrome account - **click on Link data**

Then click on the button "**Yes I'm in**" for **Turn on Sync**

When **Signed** in and **Synced** - click on the "Extension" (puzzle icon) on the top right corner beside your account.

This will show all the **Extensions installed** on your account.

GAT Shield will be there, you can click on the "puzzle" icon to show it to be visible in the User interface.

Result

This is how you are signed into the Chrome browser.

If the Shield extension is deployed, it should be visible just like the example above. This means Shield is active and Teacher assist should also be active.
