# Mobile Devices – Apps

Users Audit & Management · https://gatlabs.com/knowledge/tech-tips/mobile-devices-apps/

## Mobile apps reported in GAT+

View **all of the installed applications** on **Mobile devices that users synced using their Google domain work email address.**

Navigate to **GAT+ > Mobile Devices (Legacy)**

For each application listed you will see the following details

- **Package name**
- **App display name**
- **Users who have it installed**
- **Version Name**
- **Version Code**
- **Permissions Requested**

| Package name | Display name | Users | Version name | Version code | Permissions |
|---|---|---|---|---|---|
| com.facebook.system | Facebook App Installer | [redacted]@generalauditttool.com | 64.0.14 | 260253398 | com.facebook.system.ACCESS<br>INSTALL_PACKAGES<br>CHANGE_COMPONENT_ENABLED_...<br>GET_TASKS<br>DELETE_PACKAGES<br>REAL_GET_TASKS |

# Export data

The data can be exported into Google spreadsheet or CSV
